www.widerfitshoes.co.uk

Our mission is to offer shoes which give the “freedom” to be able to walk in complete comfort and the “joy” of living your life to the full without thinking about your feet!

Passionate about shoes, we have made it our mission in life to share our passion with you, our customers, and ensure that your shoes are something you never need to worry about!

Do you find difficulty in getting shoes that are wide and deep enough for your feet?

Look no further!

All our shoes are Wider & Deeper than High Street Shoes - they just don't look it!

We meet so many people who have struggled for years to find shoes that fit. They “make do” by squeezing into a shoe, or going for a size far too large - either way, this is not healthy for your feet.

Our shoes are not only wider and deeper than High Street shoes, they have extra features (see pages 8 & 9) to give the perfect fit and comfort for your feet.

New to our shoes?

See pages 4 - 5 for useful information.

Try our shoes ... Start living life to the full without thinking about your feet!

** Delivery approx. 5 working days. Premium service available.

New To Our Shoes?

Here are some helpful hints to get the perfect fit for your feet.

1 Establish your size (foot length) and fitting (foot width) ...
 Follow our step by step guide in this catalogue **or** Use our super-easy fit finder on our website at www.widerfitshoes.co.uk
 (see inside back cover)

2 Then look at your foot shape and compare with the toe shape of the shoe to establish which toe shape is best suited to your feet.

Toe Shapes

Most people have one of three common toe shapes.

Rounded - known as "Roman"
 Square - known as "Egyptian"
 Tapered - known as "Greek"

3 Also consider other aspects of your feet. For instance, do you have a high instep, or do your feet swell during the day? If so look for an upper design that adjusts to accommodate these needs.

✓ These styles of uppers are good as the facings and laces open up

✓ Bar adjusts for high instep or swelling

Our shoes are life-changing! ... Our customers tell us so!

4 Consider the fastening of the shoe.
 Is a secure fitting or easy access more important?

SECURER THE FASTENING

EASIER TO OPEN & PUT ON

Not Sure...?

Customer Services Can Help

📞 **01933 311 077**

If you are unsure at any stage and would like further help, please ring our Customer Service Team
 Monday to Friday (9am to 5pm)
 who will help you through the process.

Wide & Deep Toe Boxes

Our shoes have wider and deeper toe boxes, which allow room for your feet to function normally without pain and discomfort, plus variable fittings and adjustable fastenings so you can get the correct fitting for your feet.

**Our shoes aren't just wider, they are also deeper.
So plenty of wiggle room for your toes.**

Our Variable Fitting System

Our shoes are available in our **Variable Fittings 2V** and **6V**.

Our **Variable Fittings** offer a flexible system of making shoes wider and/or deeper by removing insoles or adjusting fastenings.

Are your feet

SLIGHTLY WIDER

than can be accommodated
by High Street shoes?

**Our 2V fitting has
1 or 2 removable insoles**

Keep all insoles in = **EE** fitting
Remove an insole = **4E** fitting

Fits **EE** with insoles inserted
Fits **4E** with an insole removed

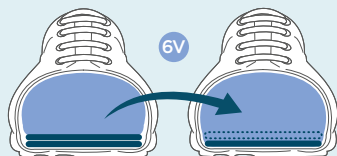

Are your feet

MUCH WIDER

than can be accommodated
by High Street shoes?

**Our 6V fitting has
1 or 2 removable insoles**

Keep all insoles in = **6E** fitting
Remove an insole = **8E** fitting

Fits **6E** with insoles inserted
Fits up to an **8E** with an insole removed

Our different fittings are denoted by coloured roundels: **2V** **6V**.
Look out for the coloured roundel which denotes your fitting.

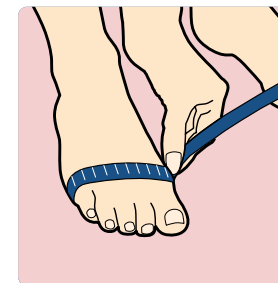

Or, on our website, sort by your size and fitting on our dropdown menus, to see instantly which styles are available in your fitting.

How Our Fittings Work

The fitting, or what would typically be described as the **'width'** of the shoe, is the internal circumference of the shoe around the widest point of your foot, from the ball joint to the outside of your little toe joint.

The **'space'** within a shoe can be varied in a number of ways to adjust the fitting - hence we describe this as a **'Variable Fitting'**.

You may have one foot larger than the other, or your feet may change shape during the day - **'Variable Fitting'** shoes can help as you can adjust each shoe and get the **"perfect fit"** for your feet.

Ways To Adjust the Shoe

Use any combination of these handy tips
to create a **'bespoke'** fit for your feet.

1 Adding or removing insoles alters the space within the shoe.

Rory
Navy
Page 87

2 Adjusting strap fastenings. Cut the strap to the correct length for your feet.

Hummingbird
Blue Suede
Page 81

3 Stretch uppers which adjust to accommodate swelling or awkwardly shaped feet.

Panther
Sky Blue
Page 16

4 Adjustable upper design - loosen or tighten laces to accommodate a high instep or swelling.

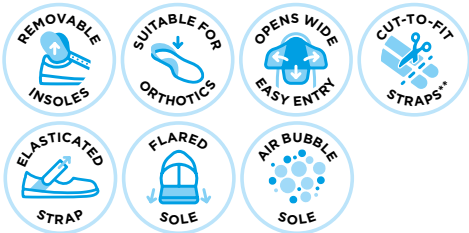

Sinead
Sky Blue
Page 30

Understanding Our Shoes

We have added more information to our catalogue and website to help you choose the shoes which have the characteristics which are most important to you. Here are some examples:

Design Features

These features help you to 'customise' the fit of our shoes to suit your foot. They also make our shoes super-comfortable.

Benefits

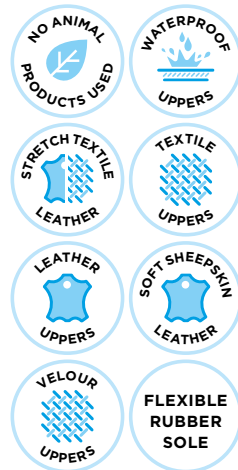

We pride ourselves on designing shoes suitable for many foot conditions and foot shapes. Look out for these symbols for shoes which may help if you suffer from these issues*.

* The information given on medical conditions is for guidance only. Please refer to your Doctor or Foot Health Professional for advice on the most suitable product for your needs.

Composition

We offer shoes for every occasion - choose your preferred upper material and sole with the help of our simple symbols.

Customer Service Team
01933 311 077

Mon-Fri
9:00am-5:00pm

Our Shoes Have Built-in Adjustability because everyone's feet are DIFFERENT!

Extra features make our shoes as adjustable as possible, so that you get the perfect fit without having to go to the expense of bespoke footwear.

Removable insoles

Our shoes have removable insoles to adjust the depth of the shoe or to make room for orthotic devices.

Rory
Navy
Page 87

Extra Long Straps

We offer styles with "extended straps" which can be cut to the correct length for your feet.

Scott
Sky Blue**
Page 85

**Please check you are happy with the shoes before cutting the strap, as once the strap has been cut the shoe cannot be returned.

Easy Access styles

have adjustable uppers that open up to give easy access and adjustability.

Devon
Navy
Page 108

We position the 'Stay points' towards the front to allow the shoe to open extra wide.

Air Bubble Soles

For ultimate cushioning

Made from hard wearing and eco-friendly polyurethane. The cellular structure is composed of thousands of tiny air bubbles which act as tiny shock-absorbers.

Monkey
Sky Blue
Page 76

Flared Soles

For increased stability

The sole 'flares' out, so it is wider at the base, making it more stable. A built in heel cup gives increased support and helps to stop the foot rolling.

New Wedge Trainers**

A versatile, **NEW** stylish wedge sole with a touch of extra height plus a stable sole - for day-long comfort!

Slippers

The Comfort of a Slipper with the Support of a Shoe

A common cause of falls in the home is 'sloppy' or poor fitting slippers. Though our slippers look like high street slippers they have **heel stiffeners** and a more **substantial, stable, sole** to give **increased support** as a shoe would, to help reduce the risk of falls.
